SITE WALK

Tetlow & Sons Construction, Inc. – 21 Connecticut Road – Construct a 13 x 13' ground level patio with a 4' x 10' walkway to an outdoor shower.

The commission walked the site with the contractor for the applicant, David Tetlow. Mr. Tetlow staked out the location of the proposed patio to be constructed of pavers as well as the proposed shower. Mr. Tetlow indicated the shower would just drain onto the property.

The commission viewed the area of the proposed construction and the distance to the wetlands located at the rear of the property. After a brief discussion the commission indicated they had no concerns regarding impacts to the wetlands.

John Mesham made a motion to issue an Administrative Permit. Chris Marchant seconded the motion. The motion passed unanimously.

Respectfully submitted,
