

**MINUTES  
SITE WALK  
INLAND WETLANDS AND WATERCOURSES COMMISSION  
MONDAY, OCTOBER 16, 2023**

**PRESENT WERE:** Rachael Gaudio, Tom Machnik, John Mesham, Peter Friel, Todd Crolius, Mike Miller and Scott Basham.

**ABSENT:** Jared Bombaci and Chris Marchant

5:00 P.M. – Brian and Jane Fox – 43 Brighton Road – An Addition & renovation to an existing home to include grading and the removal of an existing shed.

Joe Wren, PE with Indigo Land Design located in Old Saybrook, CT and Bob Russo, Soil Scientist walked the site with the commission. Wren reviewed the location of both the inland wetlands and tidal wetlands located on the site. The proposed addition was outlined on the site with white paint. Wren stated the existing shed on the site which is proposed to be removed indicated the wetlands boundary line. Wren showed the approximate location of the flood zone on the site.

The commission members reviewed the grade change and the elevation of the proposed deck. Tom Machnik asked if the grade of the site would change and if so, how much fill was proposed.

Based on information provided at the site walk by Bob Russo, Joe Wren indicated that he would be submitting an updated plan to the Commission at its regular meeting.

No action was taken.

Respectfully submitted,

Kim Groves
