

Area Known as Hawk's Nest Ground Water Study Well

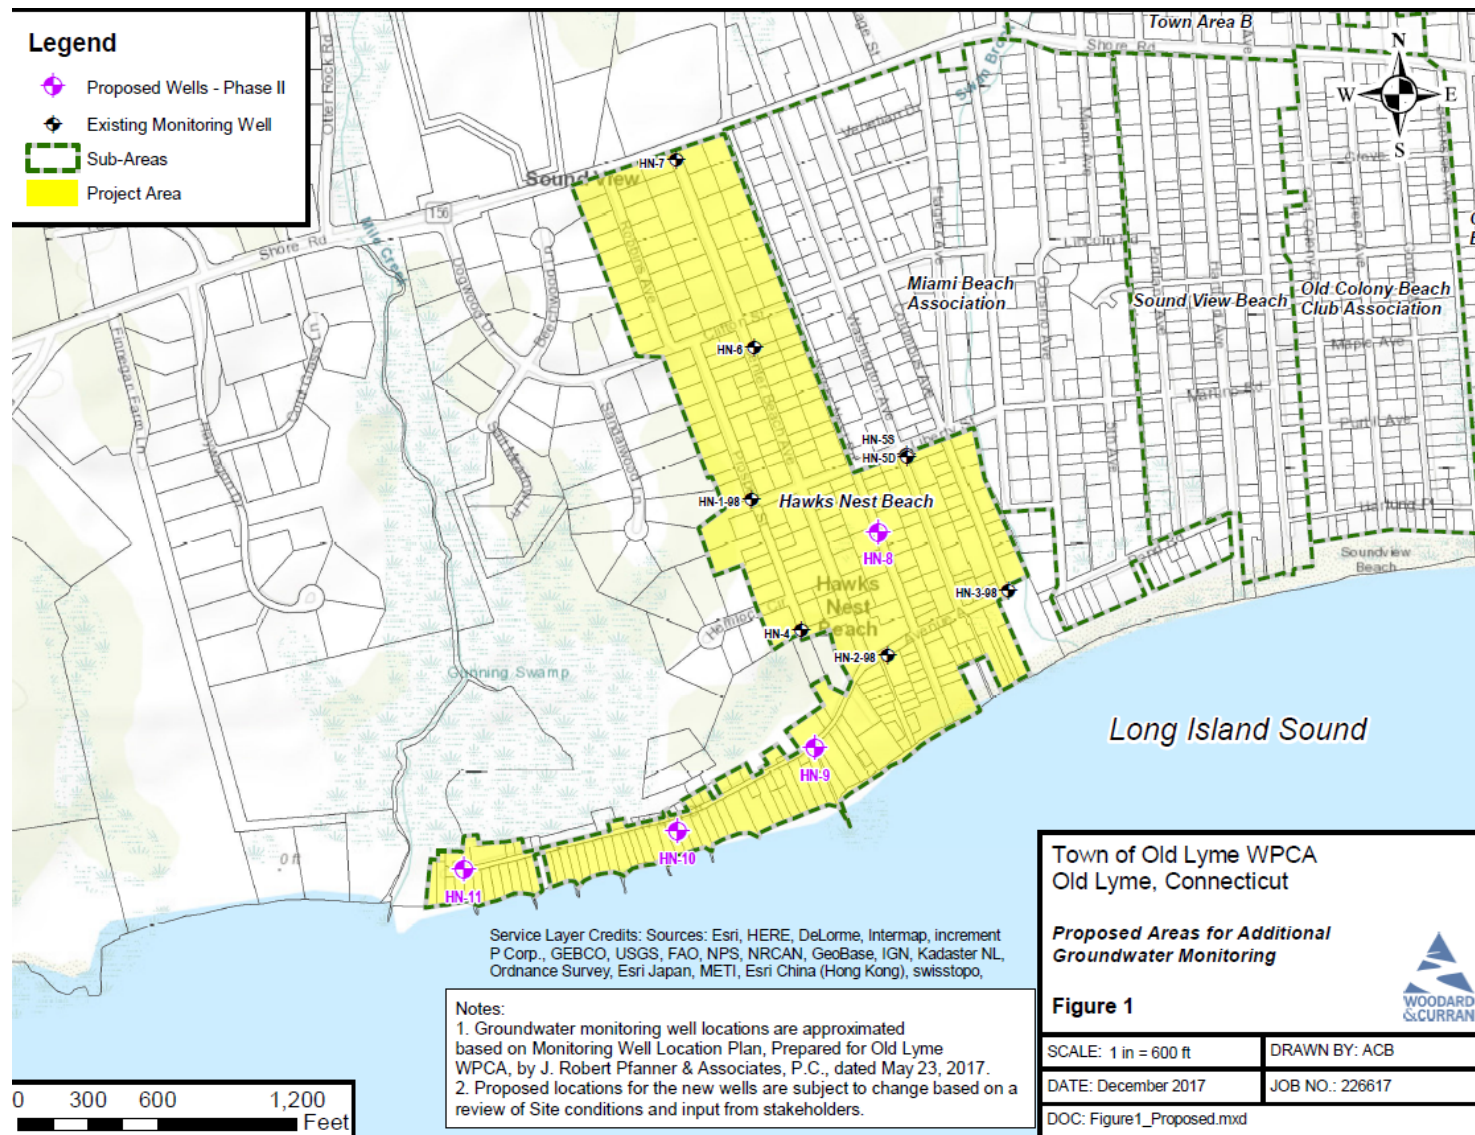

5/8/2018

Overview

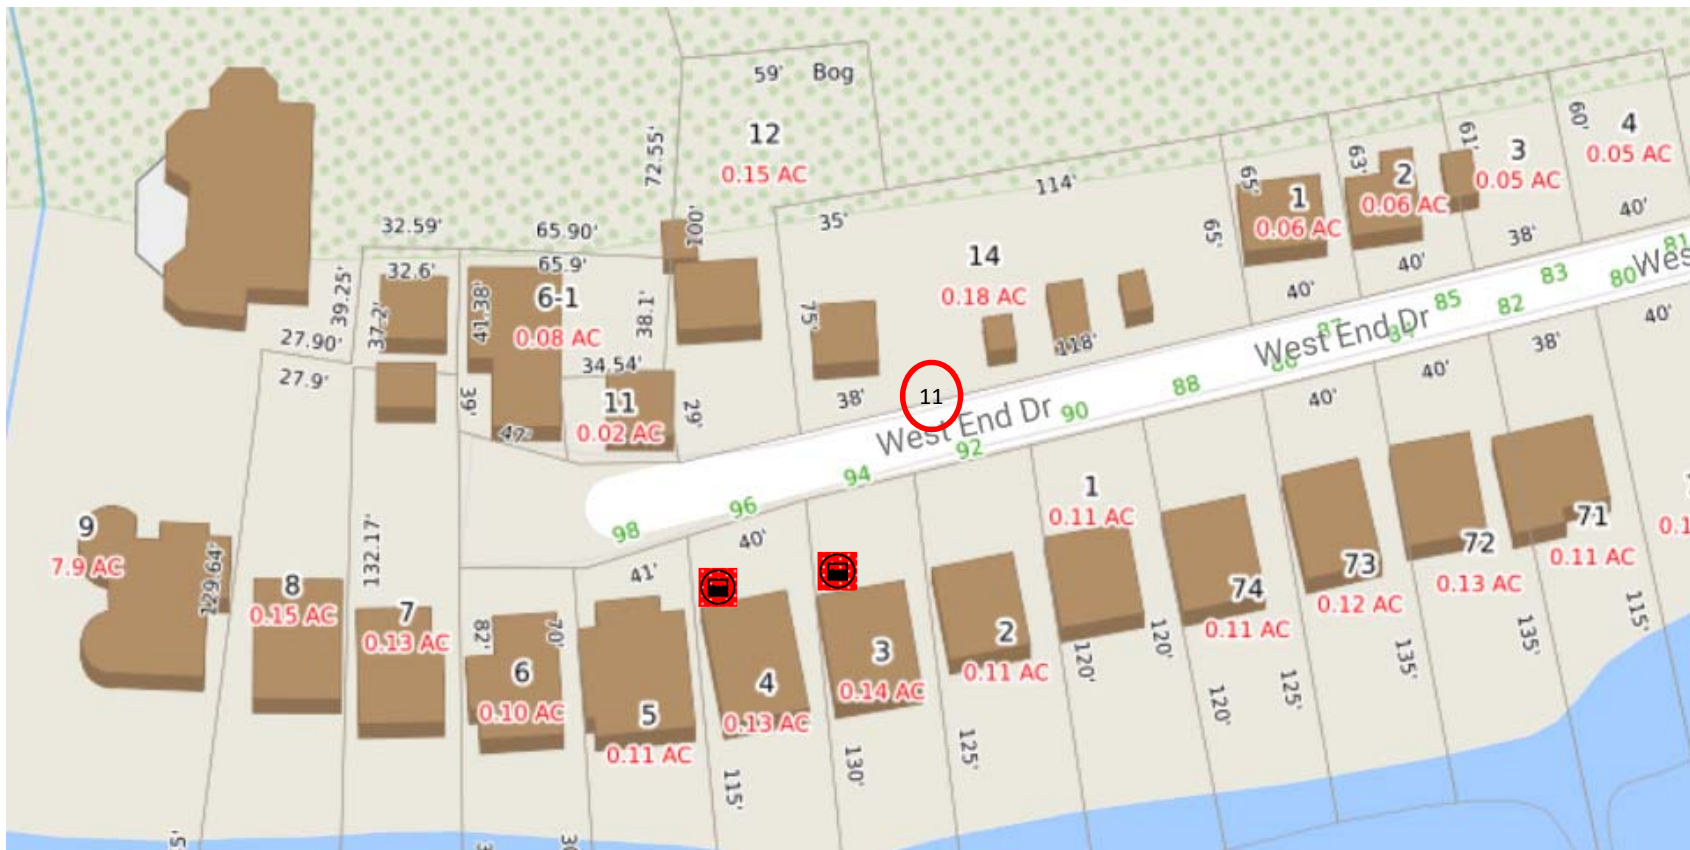

- The following illustrates the proposed and existing monitoring well locations
- Town of Old Lyme's GIS data of land plots number
- Relative locations of near by septic and leach fields
- On maps, green numbers (if available) are the street address; Black numbers are Lot numbers
- The following symbols equal septic tank  and leach field 
- May 8th WPCA meeting motioned a +/-25ft placement of wells
- Final well location based on field inspection by WPCA

Overall Area of Wells

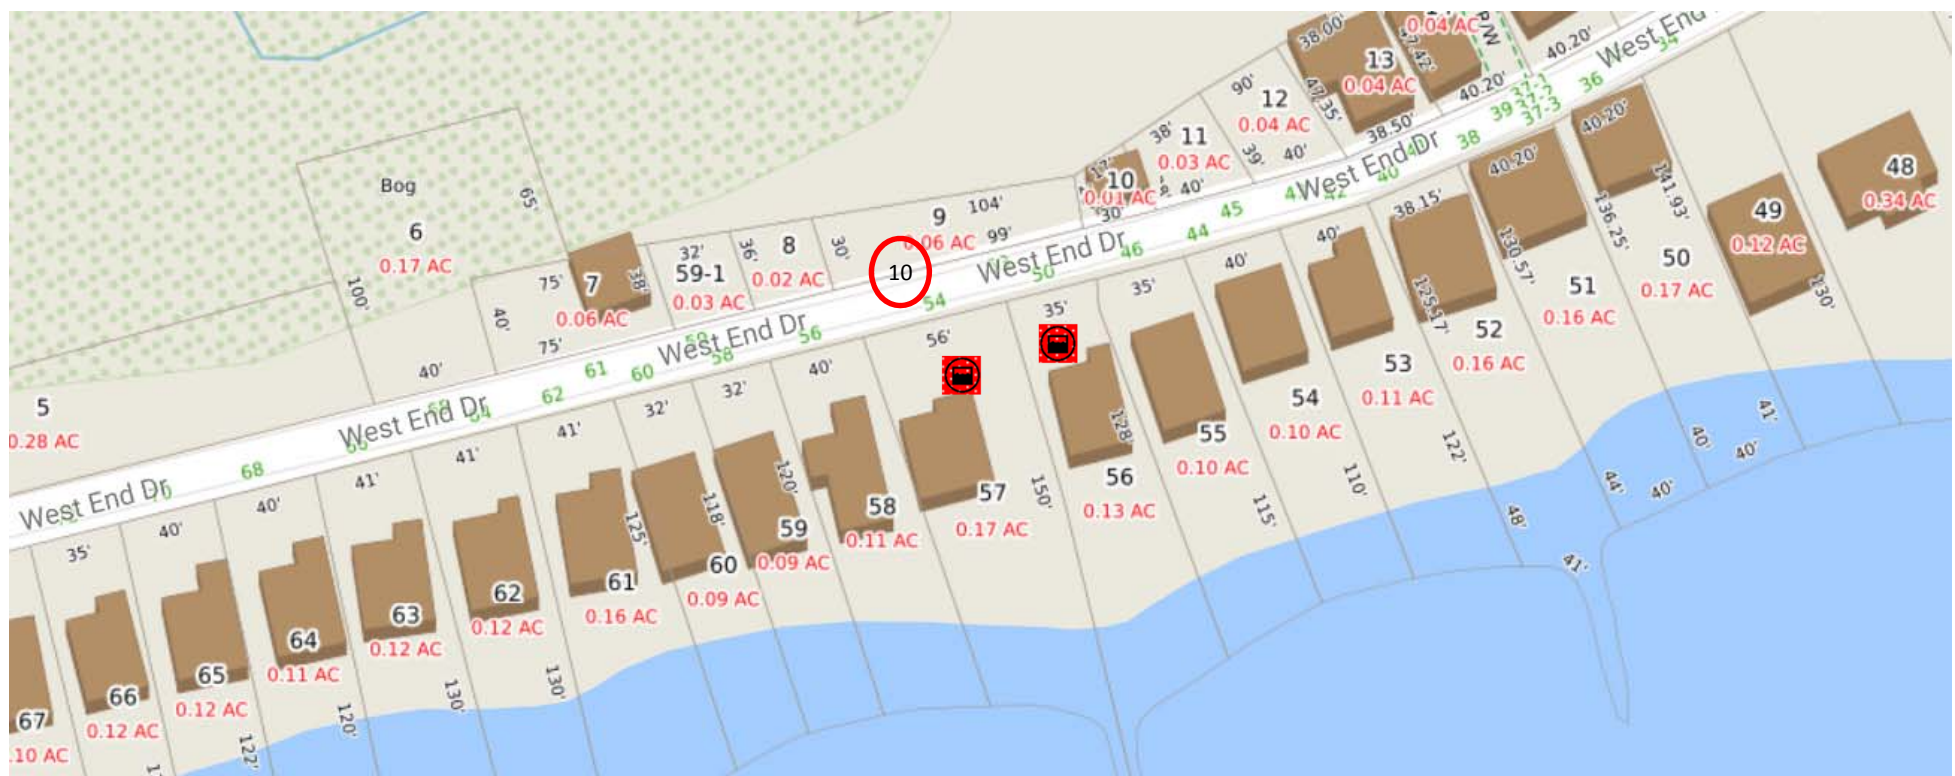

Note some wells were replaced for cause
New wells are:
11, 10, 9, 8, 5N, and 4N

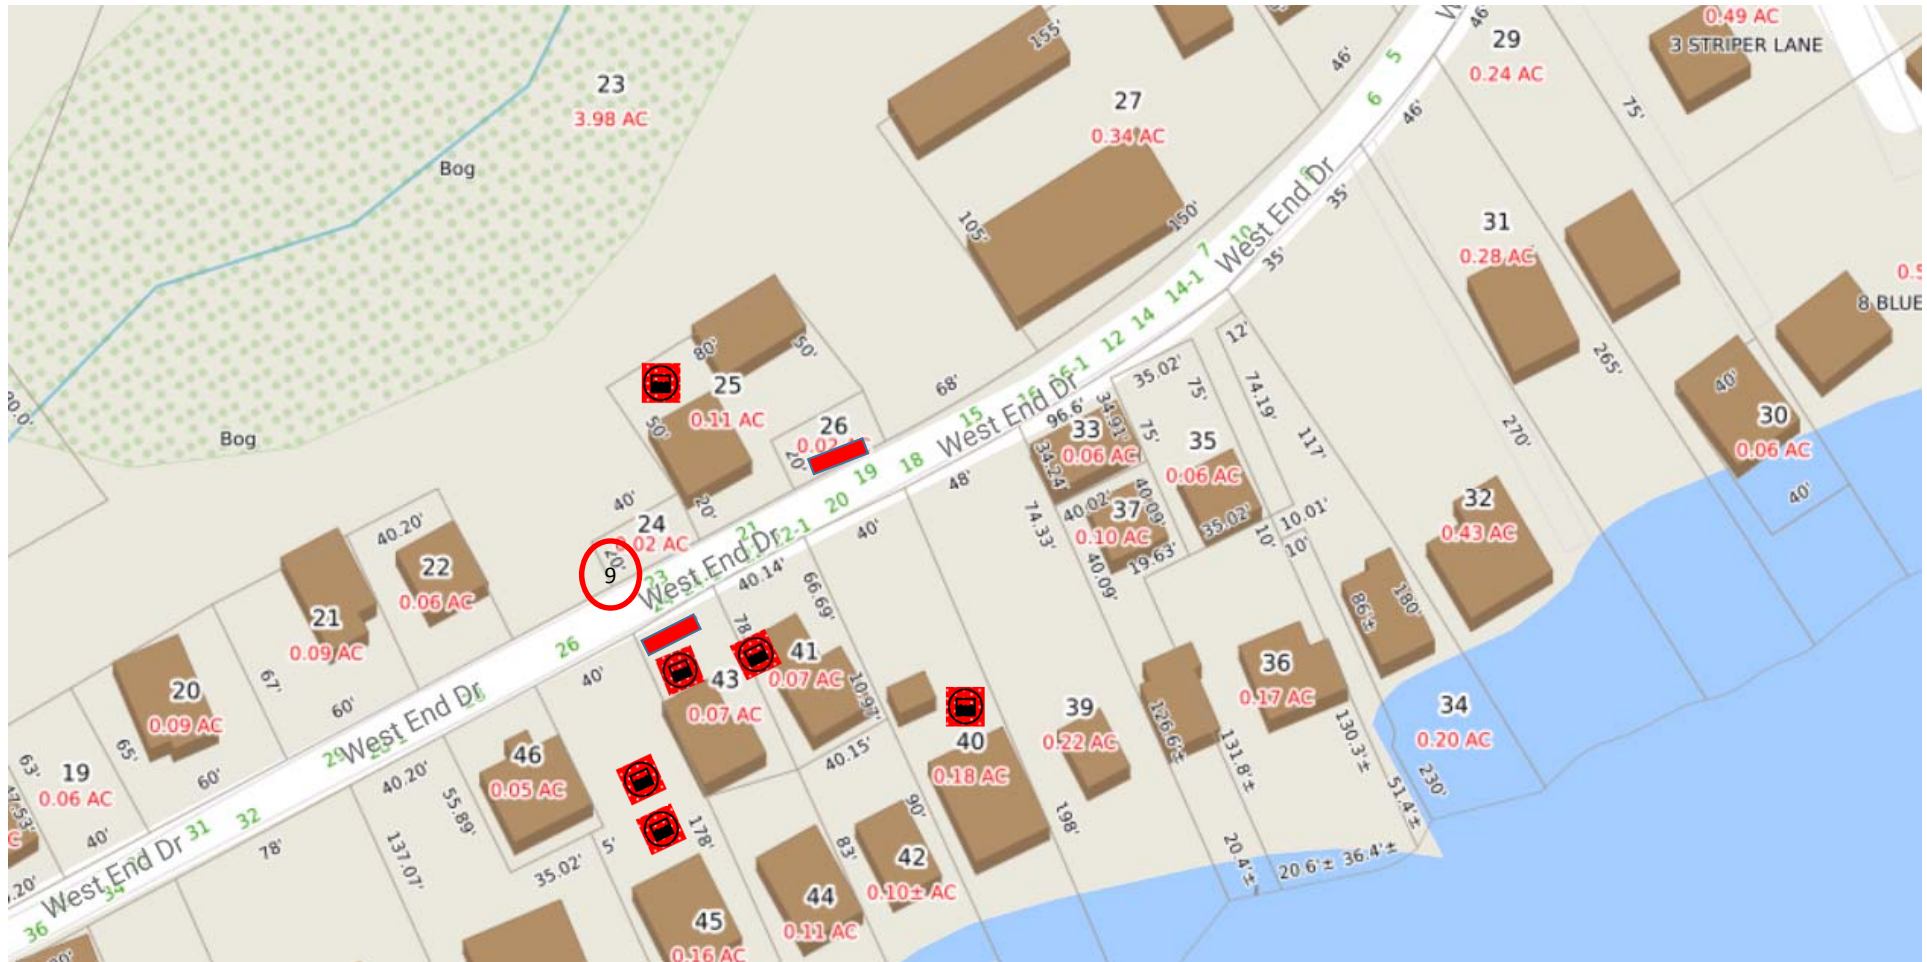

5/18/2018 WPCA Meeting described placing this well on the property line away from interfering with car parking traffic

West End Drive: Proposed HN 10

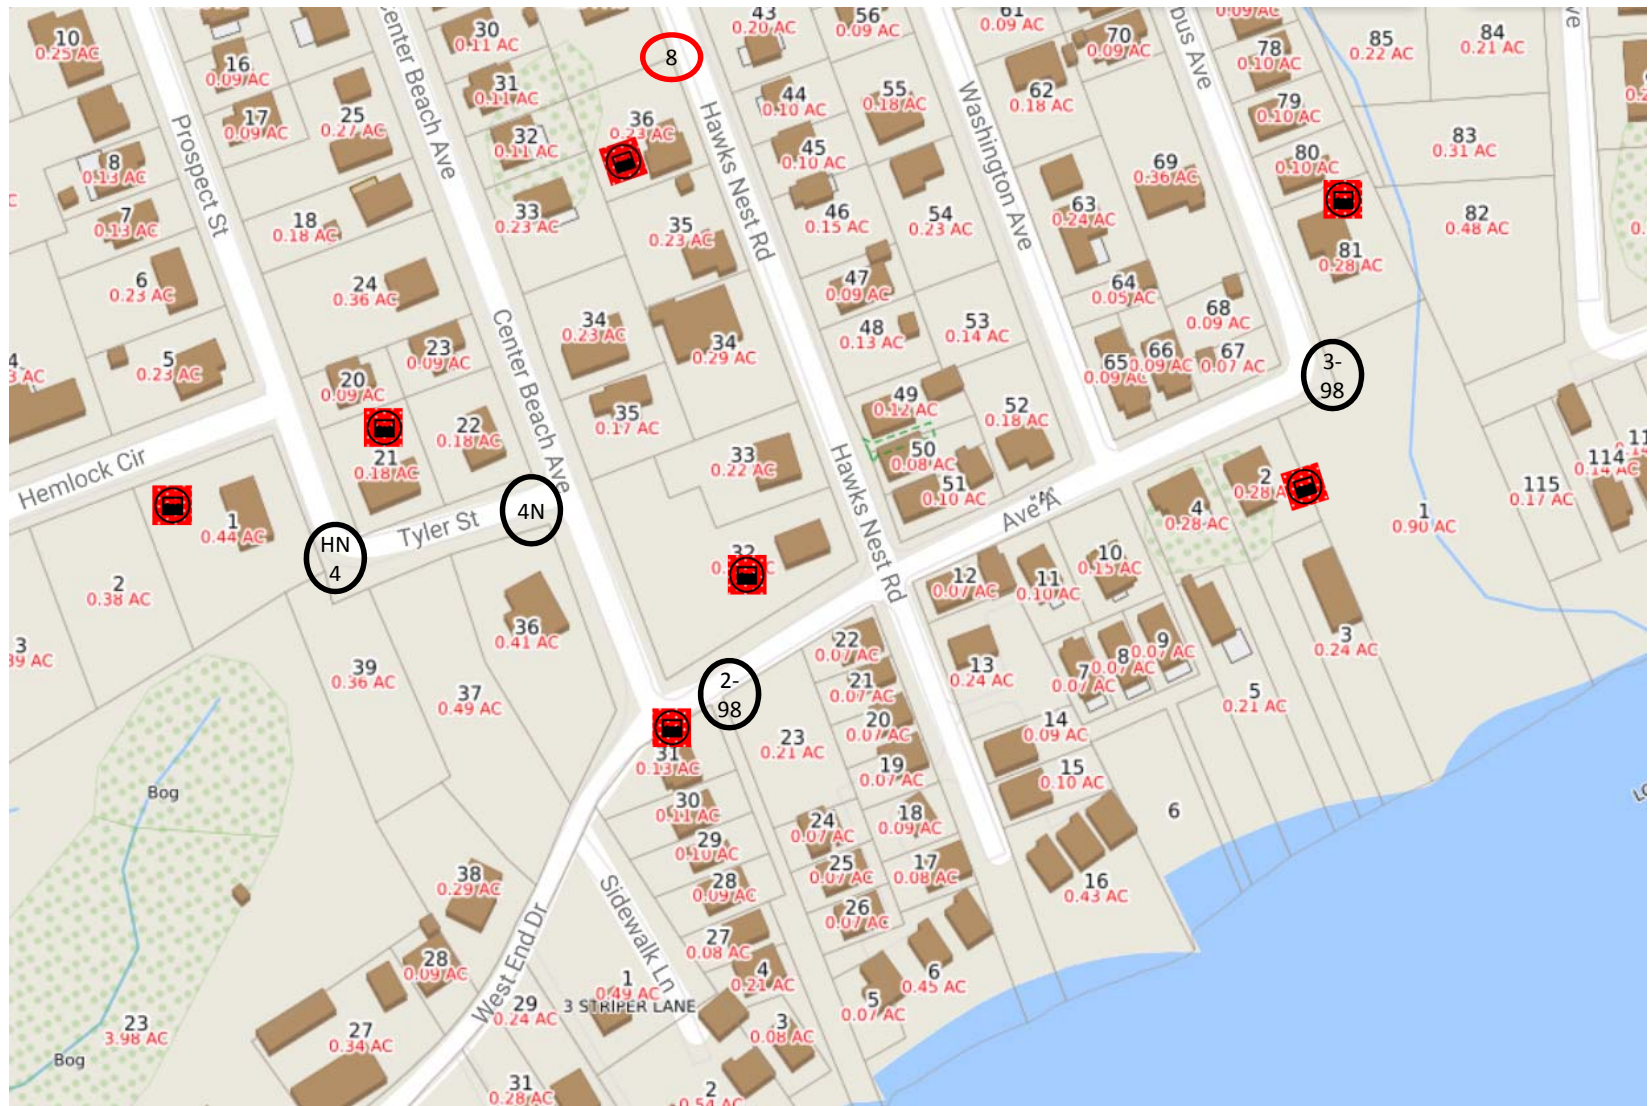

West End Drive: Proposed HN 9

Proposed:
8

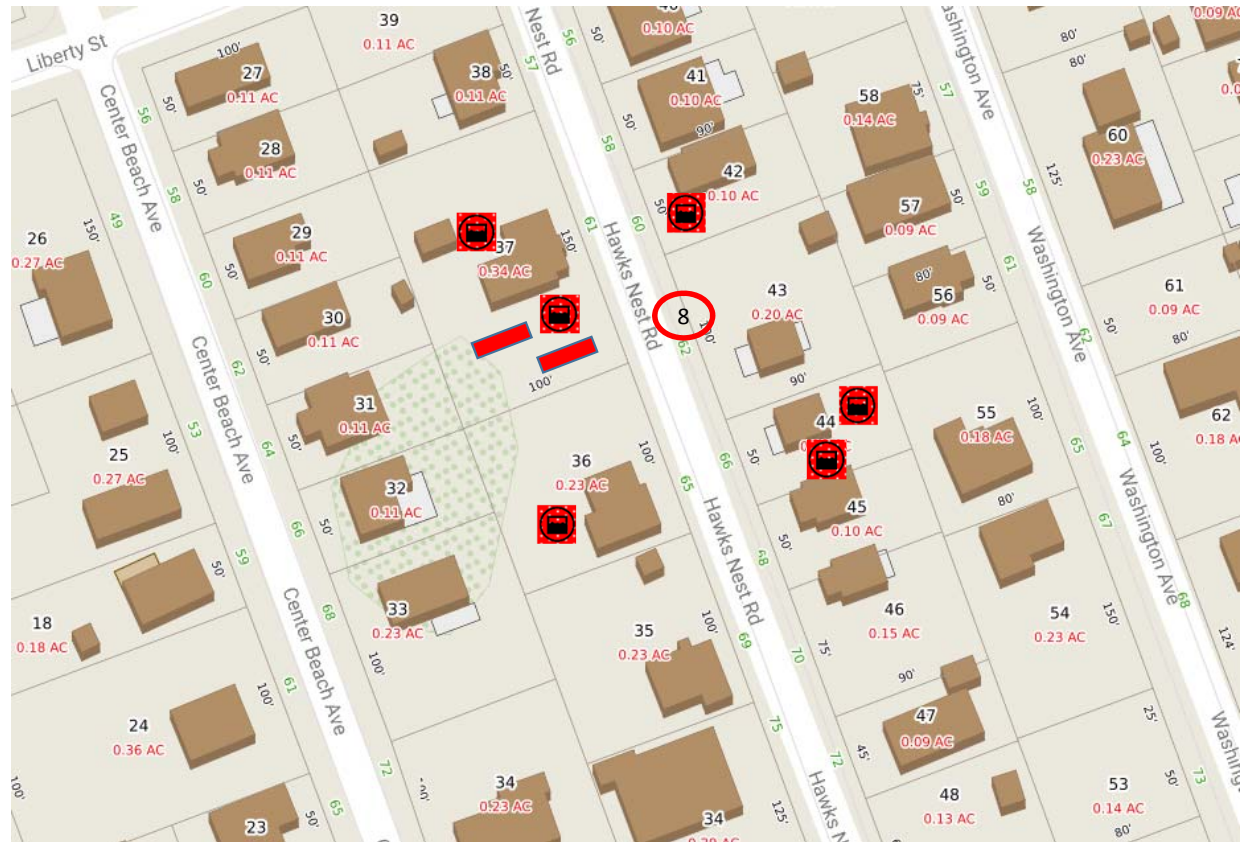

Existing:
HN-2-98
HN-4
HN-3-98

5/8/2018 WPCA
meeting motioned
to abandon testing
well HN-4 and
create a new well
4N as shown

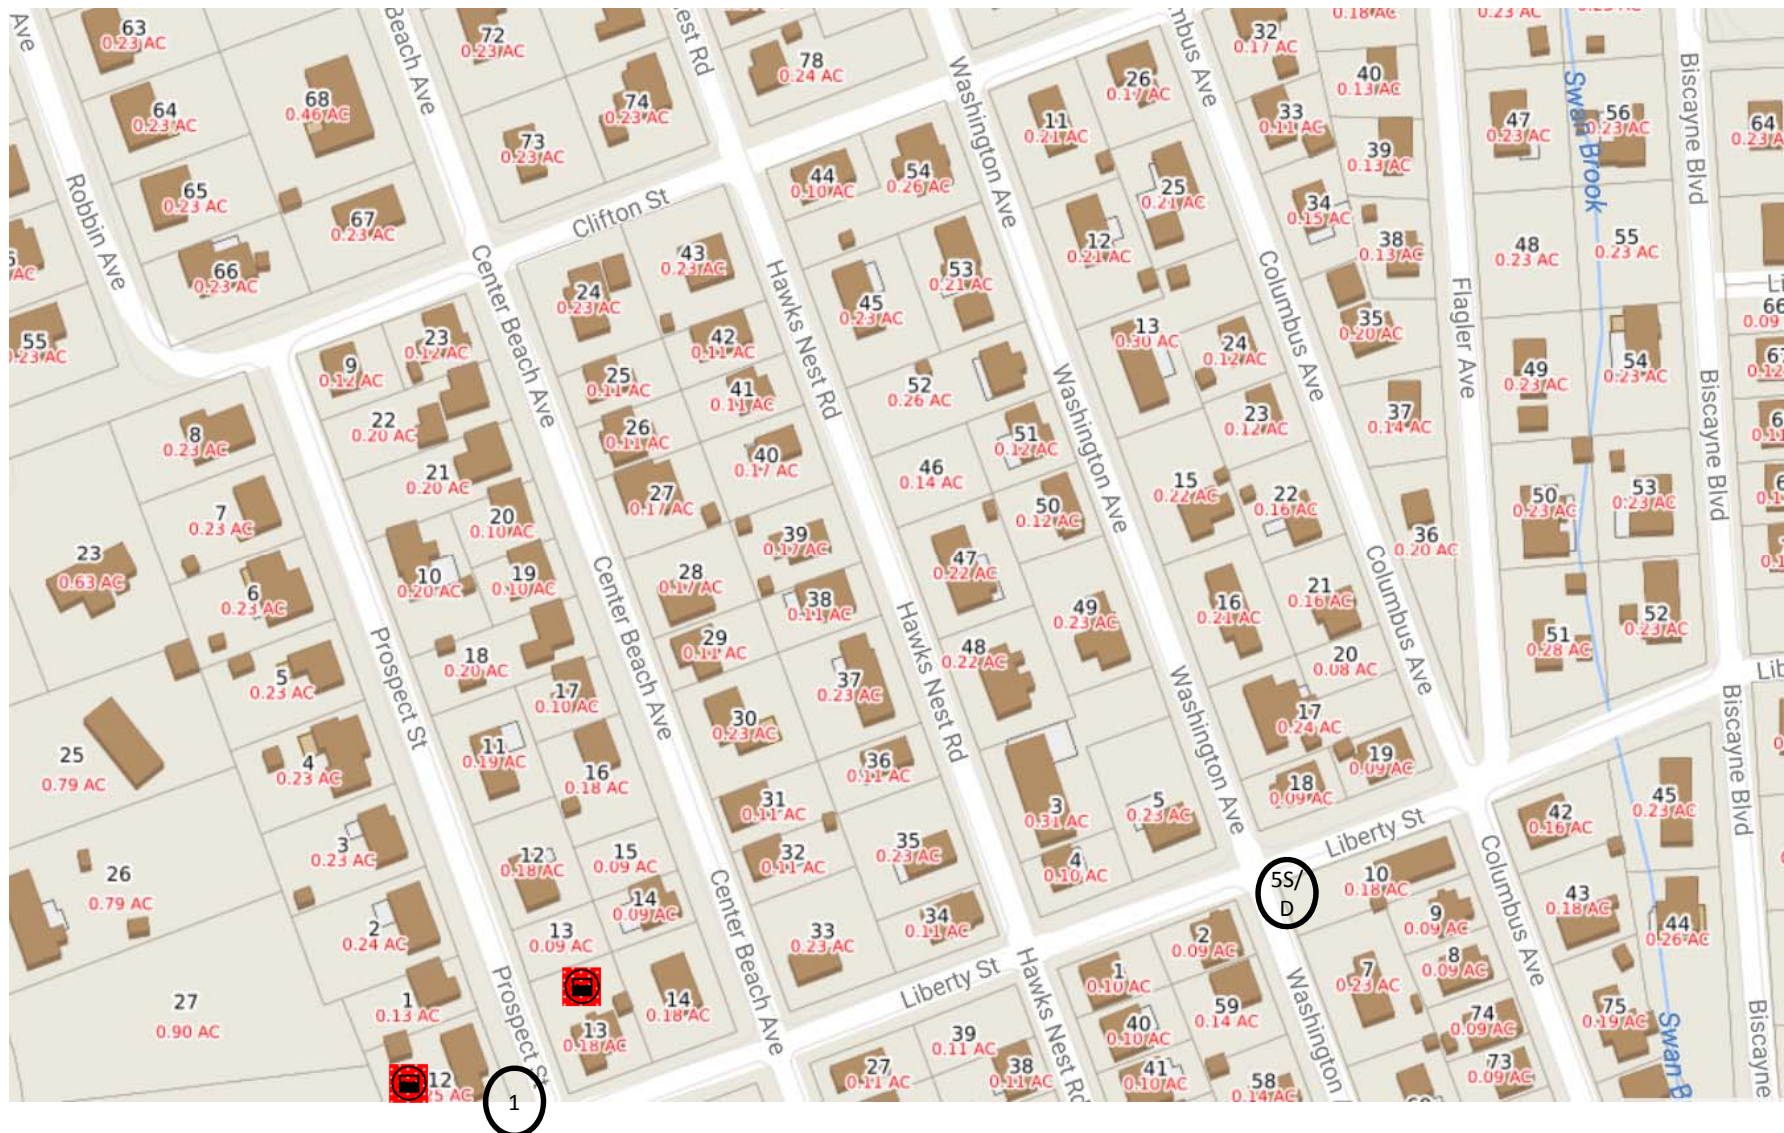

Zoom in on Proposed Well 8

The street number 61 is proposed new septic system with unclear when or if the new system will be installed, so the monitoring well will be across the street

Existing:
HN-1-
98

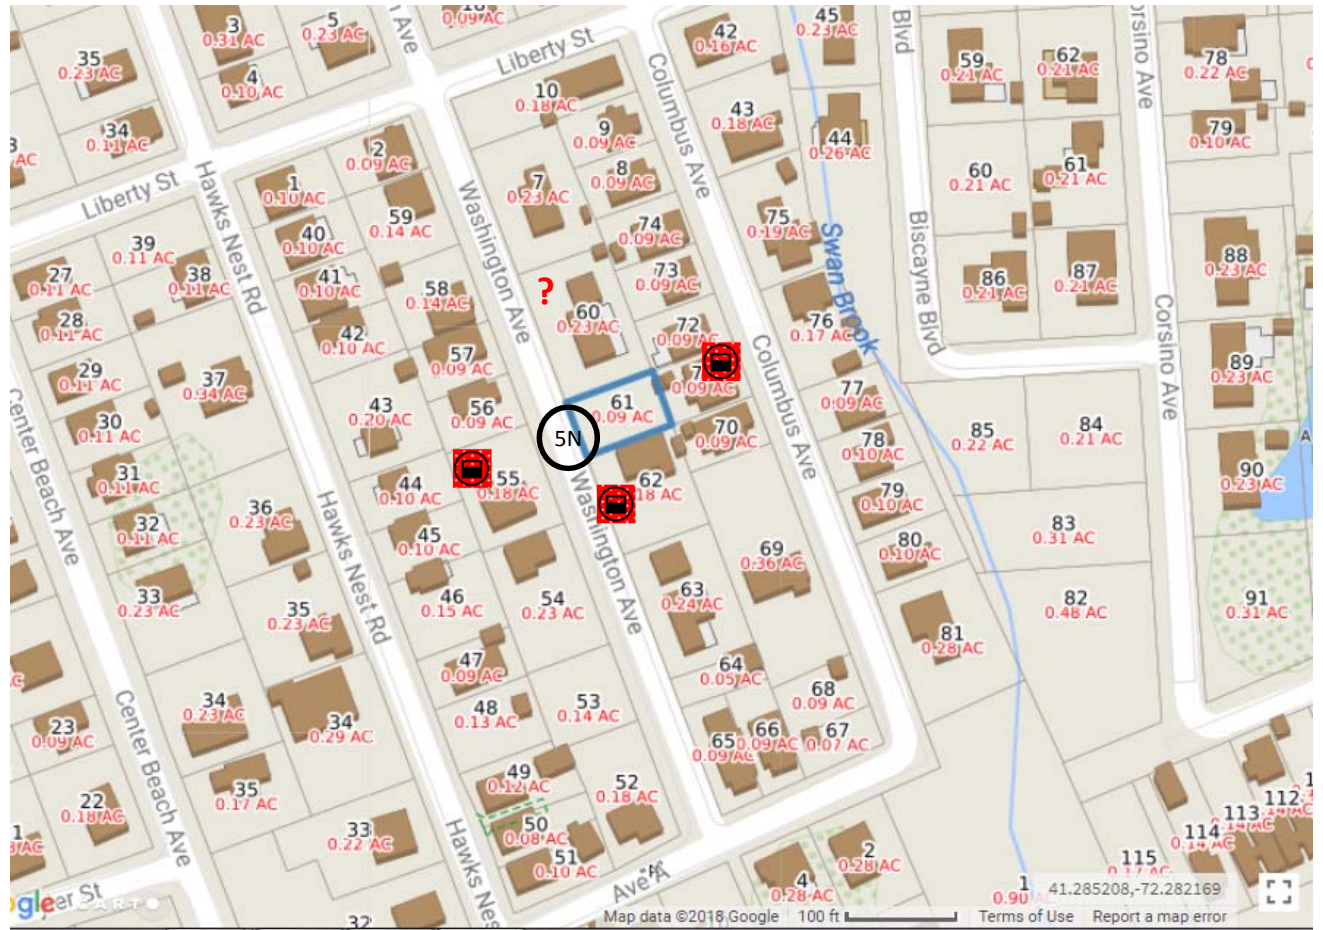

Ref 5S
and 5D

Proposed New Well

5N (replaces 5S and D)

Voted to replace these wells on at
Feb. 2018
WPCA Meeting

Existing:
HN-6, HN-7
